

Our curriculum stems from our Mission Statement of 'Live, Love, Learn' and has been designed to reflect that the Catholic life at St Elizabeth's is rich, varied, inclusive, exciting, challenging and inspiring. We shall aim to prepare our children to be confident, happy people who can contribute to our local, national and global communities in our increasingly connected world. We aim for them to be...

Curious

Our children will learn to ask questions and seek answers to further their knowledge of the world around them. They will learn to work on their own and as part of a team, using their imagination and developing a love of learning.

Resilient

Our children will learn to know themselves and to develop inner strength and strategies to deal with the demands of modern life. They will recognise that not all success can be immediate and that we can often learn more through failure than success.

Confident Communicators

Our children will be able to communicate effectively in a variety of ways including written, oral and technological. They will express their views clearly whilst also listening to and showing tolerance towards the thoughts of others.

Responsible

Our children will have a strong sense of fairness and justice. They recognise and respect their roles and responsibilities in the world in which they live in and use their voices and actions to contribute positively for the benefit of all. They accept consequences of their actions.

Knowledgeable

Our children will experience a curriculum that will provide a foundation for future learning and life skills. They will develop and use understanding, exploring knowledge across a range of disciplines. They will build on their knowledge over time.

Learning at St Elizabeth's

Problem Solvers

Our children shall use critical and creative thinking skills to analyse and take responsible action to solve problems and exercise initiative in making reasoned, ethical decisions. They will know how to use different forms of thinking for a range of tasks.

Ambitious

Our children will have high aspirations of themselves and will develop self-confidence, co-operation and independence. They will take risks, exploring new ideas and innovative strategies and embrace challenges.

Self-Aware

Our children will understand the importance of balancing different aspects of our lives— intellectual, physical and emotional—to achieve well-being for ourselves and others and recognise our interdependence with other people and with the world in which we live.

Open- Minded

Our children shall appreciate our cultures and personal histories. They will recognise and respect the values and traditions of others and seek and evaluate differing points of view. They are willing to learn and grow from this experience.

Reflective

Our children will thoughtfully consider the world and our own ideas and experiences. They shall analyse their performance in order to identify strengths and also areas which they can develop.
